---

---

Is your dog afraid of any certain type of dog? (i.e. large/small/male/female):

---

Access to the play area is via stairs and the property is enclosed with a 6' chain link fence equipped with a top perimeter electric wire. Do any of these things cause concern for the safety of your pet?

---

---

## Dog Information

run-a-muk requires all dogs in attendance to have current and appropriate **vet administered** vaccinations: Rabies, DHLPP (Distemper/Parvo), and Bordetella. **It is the client's responsibility to provide run-a-muk with current vaccination records prior to assessment, boarding, or daycare.** If we are unable to confirm your pet's vaccinations we cannot allow them on site. This is to ensure the safety of the run-a-muk guests and staff.

If any of the required vaccinations have been waived, run-a-muk must have a signed, written exemption from the dog's veterinarian.

If your dog is found to have fleas or ticks while in the care of run-a-muk, we will administer the appropriate treatment at the owner's expense.

run-a-muk requires all dogs in attendance to wear a properly fitted harness or flat collar with the dog's name attached (tag or embroidered). For safety reasons, we do not allow dogs to wear a prong, choke or 'limited-slip'/martingale collar (chain, nylon, etc.), or any collar or harness deemed unsafe to the pet or others.

***Please sign that you have read and understand the above requirements.***
